Class I or Class II Offset Air Terminal

Air Terminals are made of solid Aluminum or Copper in length. Please provide your exact requirements as this air terminal will be offset to your specifications. Field bends are permissible but must not exceed 90 degrees or have a radius of bend less than 8 inches. If you have any questions, please contact our office and we will assist you.

*Offset Air Terminals are made to order and are not returnable.

Description for Ordering:

First Step:

Prefix A- Designates Aluminum

Prefix C- Designates Copper

Second Step:

First two numbers designates air terminal diameter.

Second two numbers designates air terminal length.

Third Step:

Suffix ST- Designates Safety Tip.

Suffix X_ _ OS- Designates Offset in point.

Example: A1224STX4OS= Aluminum 1/2" X 24" Safety Tipped with 4" offset.
