## LPS815- Stamped Standing Seam Fastener

Lightning Protection Standing Seam Clamp, used for securing lightning conductor to various standing seam roofs. Mounting groove has variable mounting applications ranging from rectangular seams or beams (up to 1" wide) to seams with rounded or boxed ridges (up to 1-1/2" wide), with the cable fastener adjusting for either parallel or perpendicular cable runs. LPS815 can be used to mount air terminal bases to standing seam roofs (refer to picture example shown). Use 704 One Hole Loop Fasteners for securing conductor (not included).

Fits Rectangular Seams/Beams	Fits Rounded/Boxed Seams	Material
Up to 1" Wide	Up to 1-1/2" Wide	Stainless Steel LPS815
