GROUNDING MESH

This is a simple, cost effective method of enhancing ground systems. Improves ground plane at telecommunications and radio transmitting/ receiving facilities. Reduces step and touch potentials at power plants and substations. It also can be used where ground rods are impossible to drive or where soil conditions are ineffective.

Other sizes available, please [contact](#) us for more info.

Part Number	Width	Length	Conductor Thickness
GM4866	4'	8'	#6
GM61084	6'	10'	#4
GM815024B	8'	150'	#6 CCS (Copper Clad Steel)
